Re: Phoenix Municipal Courthouse

Dear Bruce:

The last time I saw you, we discussed the courthouse in Phoenix, Arizona, that HOK/San Francisco is designing for the city of Phoenix. I was glad to hear that your firm may be interested in bidding the exterior stonework and precast panel system for this project. Enclosed with this letter is a schematic design booklet showing the overall character of the project. I hope that this will keep your interest.

The city of Phoenix expects to solicit bids in April of 1997. I believe that they have a traditional construction schedule in mind. As I said when we spoke in Salt Lake, we intend to use sandstone and precast as the principal exterior materials.

Bruce, I have thought all along that your firm has been quite helpful, hardworking and knowledgeable in the Salt Lake project, and I would hope that you might be successful in bidding another project with HOK.

Sincerely,

Clifford Ham, AIA
Vice President
